

“Azadi Ka Amrit Mahotsav: Celebrating 78 Years of Independence”

The 78th Independence Day of India was celebrated with great fervor and enthusiasm as "Azadi Ka Amrit Mahotsav" by Indians worldwide, commemorating the country's freedom from British rule. August 15th was a day of immense national pride and joy.

The grand celebration was witnessed by the Administrator and dignitaries, and began with the Student Council members proudly hoisting the National Flag, accompanied by the National Anthem played by the School Band. The event featured a vibrant cultural program, showcasing diverse performances such as dances, dramas, songs, group dances, and speeches, all presented with great enthusiasm and patriotic spirit.

The school premises were filled with the spirit of patriotism, as parents, alumni, and the audience witnessed the marvelous event, which concluded with the school song. This momentous occasion served as a reminder of India's struggle for independence and the significance of freedom

“DEAR Day: Dive Into Books, Discover New Worlds!”

On DEAR (Drop Everything and Read) Day, students immersed themselves in the joy of reading by setting aside their regular activities to dive into their favorite books. The day fostered a love for reading and highlighted its importance in broadening horizons and enhancing imagination. Everyone enjoyed a peaceful, focused time, celebrating the magic of stories and the pleasure of reading.

“Math in Action: Fun with Hands-On Learning”

In our recent activity-based learning session for math, students engaged in hands-on exercises that made abstract concepts come to life. Through interactive games and practical activities, they explored mathematical principles in a fun and engaging way. This approach not only enhanced their understanding but also sparked a greater enthusiasm for learning math.

“Water is Life: Learn, Conserve, Cherish!”

In our experiential learning session on "Water is Life," students explored the essential role of water and its various sources through interactive projects. They participated in experiments and group activities to understand concepts like the sources of water and water conservation.

This hands-on approach deepened their awareness of the importance of water and encouraged them to appreciate and protect this vital resource.

“Champions of the Month: Celebrating Top Achievements”

Congratulations to our outstanding students who secured 1st prize in several competitions! Their exceptional skills and hard work were celebrated with certificates and a collection of exciting books. Their achievements reflect dedication and talent, setting a shining example for all. We are proud of their remarkable success and are eager to see their continued growth!

“The Shelter Adventure”

The students of Grade 2 crafted detailed models of pucca and kutcha houses using various materials. They created sturdy pucca houses with cardboard and glue, and rustic kutcha houses with natural materials like twigs and clay. This hands-on project taught them about different types of shelters and allowed them to express their creativity while learning about housing concepts.

“Read to Succeed: Unlock Knowledge, Ignite Imagination!”

Grades 1G and 2G students performed a lively skit to highlight the importance of reading and proper library behavior.

Through their engaging performance, they illustrated how reading opens doors to knowledge and the respectful conduct needed in the library. The assembly activity successfully emphasized both the joy of reading and the value of maintaining a quiet, orderly environment.

“Is, Am, Are - Small words, Big Impact!”

The students of Grade 2 participated in a fun game where they jumped onto blocks labeled 'is', 'am', and 'are' to match the pronoun. This approach helped reinforce their understanding of the helping verbs in a lively and captivating manner.

“Sip your way to a Healthier Tomorrow!”

The students of grade 2A explored the vital role of water and its unique properties. They performed live experiments demonstrating properties of water, sources and ways to conserve it. Parents were delighted as they watched their children confidently present and explain their findings, cherishing the engaging and educational moments.

“The Essentials of life: Water and Shelter”

“The students of Grade 1E and 1F embarked on an exciting journey to discover the importance of water and shelter.

Through interactive experiments, they delved into the fascinating properties of water, its sources, and the significance of conservation. The young explorers confidently presented their findings, leaving parents beaming with pride as they witnessed their children's engaging and informative presentations. It was truly an educational and cherished experience for all!”

“Choose Healthy, Skip the Junk - Fuel Your Fun with Every Bite!”

The class presentation of 2B enhanced children’s learning about the importance of healthy eating and the impact of avoiding junk food. They proudly demonstrated their culinary skills with no-cook creations like sandwiches, pea chaat, bhel puri, and fruit salads. The impressive charts and models drew admiration from parents, who were highly impressed by the children's creativity and presentation.

“The SIP Abacus”

The SIP Abacus test was conducted smoothly at school, showcasing students' proficiency in mental arithmetic. The event was well-organized and highlighted strong numerical skills and quick thinking of the students.

“Shine Bright, Share Your Light!”

The Star of the Week offers children a chance to share their personal stories, likes, dislikes, and hobbies with their friends through vibrant charts. The distinguished students this week dazzled with their creative charts, showcasing their unique stories and talents. Their enthusiasm and creativity shone brightly.
